Joseph-Briguel DOSSOU-YOVO

PROFESSIONAL & FREELANCE EXPERIENCE

Flutter Developer at **Korix Africa**

Bamako, Mali | May 2024 – Present

- Design of interactive mobile applications using **Flutter** and Firebase integration (authentication, real-time database).
- Collaboration with the team to deliver innovative and optimized solutions.

Projects Completed at Korix Africa

- Web App Telegram – Virtual World:** Developed an application accessible via a Telegram bot and hosted on Firebase. Allows users to explore a virtual world, manage assets, attend training sessions, and stay updated with news.
- Axes App – Artist Event Tracking:** Contributed to the development of an application for tracking artist events, purchasing event badges, and streaming live performances.

Mobile Developer (Freelance)

Real Estate Management Project – BMS Bank | 2023

- Development of a real estate management application with API integration for data synchronization.

Pharmaceutical Products Localization and Search Project | 2022

- Création d'une application facilitant la recherche et la localisation de produits pharmaceutiques via **intégration API**.

Developer and Designer (Personal Project)

Erudite – Educational Application | 2023

- Created an educational application featuring interactive courses and quizzes, integrated with Firebase for data management and authentication. Currently in the testing phase with over 30 users.
