

DOSSOU-YOVO Joseph-Briguel

Lead Mobile Developer | Flutter & Firebase

PROFIL

Flutter developer experienced in building and maintaining cross-platform mobile applications. Skilled in Dart, Flutter, BLoC, Firebase and REST APIs, with experience in Clean Architecture, API integration, performance optimization and end-to-end development. Comfortable working independently on project-based tasks and collaborating with remote teams.

WORK EXPERIENCE

MOBILE DEVELOPER — FREELANCE

Bamako, Mali | 2022 – Present

- Developed and maintained Flutter mobile applications for different business needs.
- Implemented features, API integrations, bug fixes and UX improvements.
- Worked with BLoC, REST APIs, Firebase and Clean Architecture.
- Delivered projects from requirements analysis to production deployment.

Flybagage (2025) — Flutter features, bug fixes and UX improvements.

Karrou – Wassa Technologie (2024–2025) — Dating app using Flutter, BLoC and REST APIs.

BMS Bank (2023) — Real estate management application with API synchronization.
